Terms

The terms used in the Conformance Level information are defined as follows:

- **Supports**: The functionality of the product has at least one method that meets the criterion without known defects or meets with equivalent facilitation.
- **Partially Supports**: Some functionality of the product does not meet the criterion.
- **Does Not Support**: The majority of product functionality does not meet the criterion.
- **Not Applicable**: The criterion is not relevant to the product.
- **Not Evaluated**: The product has not been evaluated against the criterion. This can be used only in WCAG 2.0 Level AAA.

WCAG 2.x Report

Tables 1 and 2 also document conformance with:

- EN 301 549: Chapter 9 - Web, Chapter 10 - Non-Web documents, Section 11.2.1- Non-Web Software (excluding closed functionality), and Section 11.2.2 - Non-Web Software (closed functionality).
- Revised Section 508: Chapter 5 b501.1 Scope, 504.2 Content Creation or Editing, and Chapter 6 b602.3 Electronic Support Documentation.
Note: When reporting on conformance with the WCAG 2.x Success Criteria, they are scoped for full pages, complete processes, and accessibility-supported ways of using technology as documented in the [WCAG 2.0 Conformance Requirements](https://www.w3.org/TR/2018/REC-webcontentAccessibilityGuidelines-20180619/).

- HCL AppScan Enterprise
  - Installation Wizard for AppScan Enterprise, ManualExplore Installer, AppScan Manual Explorer Tool, Server Configuration Wizard, and Interaction Tool - All non-text content that is presented to the user has a text alternative that serves the equivalent purpose.

- Electronic Docs:
  - The following components do not apply to this criterion:
    - o HCL AppScan Enterprise - No prerecorded audio-only and no video-only media.
    - AppScan Enterprise Help Center
    - AppScan - Enterprise Product Output: Reports & DashBoard,
### 1.2.2 Captions (Prerecorded)

**Level A**

**Also applies to:**

- EN 301 549 Criteria
  - 9.2.3 (Web)
  - 10.2.3 (non-web document)
  - 11.2.1.3 (Software)
  - 11.2.2.3 (Closed Software) - Does not apply

**Web:** Not Applicable

**Electronic Docs:** Not Applicable

**Software:** Not Applicable

- The following components meet this criterion:
  - HCL AppScan Enterprise
    - Installation Wizard for AppScan Enterprise,
      ManualExplore Installer, AppScan Manual Explorer Tool, Server Configuration Wizard, and Interaction Tool - An alternative for prerecorded audio-only or video-only media is provided. This is not a requirement when the audio or video is a media alternative for text and is clearly labeled as such.

**Web:**

- The following components do not apply to this criterion:
  - HCL AppScan Enterprise
    - AppScan Enterprise - No prerecorded audio.

**Electronic Docs:**

- The following components do not apply to this criterion:
- 11.6.2 (Authoring Tool)
- 12.1.2 (Product Docs)
- 12.2.4 (Support Docs)

2017 Section 508

**Web:** Supports

**Electronic Docs:** Supports

**Software:** Supports

- Does not apply to non-web docs

**Also applies to:**

- EN 301 549 Criteria
  - 9.2.21 (Web)
  - 10.2.21 (non-web document)
  - 11.2.1.21 (Software) - Does not apply
  - 11.2.2.21 (Closed Software) - Does not apply
  - 11.6.2 (Authoring Tool)
  - 12.1.2 (Product Docs)
  - 12.2.4 (Support Docs)

**2017 Section 508**

- 501 (Web)(Software)
- 504.2 (Authoring Tool)
- 602.3 (Support Docs)

**Web:**

- The following components meet this criterion:
  - HCL AppScan Enterprise - Titles are provided that describe topic or purpose.
    - AppScan Enterprise Help Center
    - AppScan - Enterprise Product Output: Reports & Dashboard, exported PDF, XLS, CVS, XML; Scan Log exported TXT

**Electronic Docs:**

- The following components meet this criterion:
  - HCL AppScan Enterprise - Titles are provided that describe topic or purpose.
    - AppScan Enterprise Help Center
    - AppScan - Enterprise Product Output: Reports & Dashboard, exported PDF, XLS, CVS, XML; Scan Log exported TXT

**Software:**

- The following components meet this criterion:
  - HCL AppScan Enterprise - Installation Wizard for AppScan Enterprise, ManualExplore Installer, AppScan
### 2.4.3 Focus Order (Level A)

Also applies to:

**EN 301 549 Criteria**
- 9.2.22 (Web)
- 10.2.22 (non-web document)
- 11.2.1.22 (Software)
- 11.2.2.22 (Closed Software) - Does not apply
- 11.6.2 (Authoring Tool)
- 12.1.2 (Product Docs)
- 12.2.4 (Support Docs)

| 11.3.2.5 Object information  | Supports | • The following components meet this criterion:  
  o HCL AppScan Enterprise  
    • Installation Wizard for AppScan Enterprise, ManualExplore Installer, AppScan Manual Explorer Tool, Server Configuration Wizard, and Interaction Tool - Semantic information is |
| 11.3.2.6 Row, column, and headers | Not Applicable | • The following components do not apply to this criterion:
  o HCL AppScan Enterprise

| 11.3.2.7 Values | Supports | • The following components meet this criterion:
  o HCL AppScan Enterprise
    ▪ Installation Wizard for AppScan Enterprise, ManualExplore Installer, AppScan Manual Explorer Tool, Server Configuration Wizard, and Interaction Tool - The current value and any minimum or maximum values, if the component represents one of a range of values, are programmatically determinable. |

| 11.3.2.8 Label relationships | Supports | • The following components meet this criterion:
  o HCL AppScan Enterprise |
| 11.3.2.9 Parent-child relationships | Not Applicable | The following components do not apply to this criterion:  
  - HCL AppScan Enterprise  

| 11.3.2.10 Text | Supports | The following components meet this criterion:  
  - HCL AppScan Enterprise  
  - Installation Wizard for AppScan Enterprise, ManualExplore Installer, AppScan Manual Explorer Tool, Server |
| 11.3.2.11 List of available actions | Supports | The following components meet this criterion:  
  - HCL AppScan Enterprise  
    - Installation Wizard for AppScan Enterprise, ManualExplore Installer, AppScan Manual Explorer Tool, Server Configuration Wizard, and Interaction Tool - A list of actions that can be executed on an object is programmatically determinable. Assistive technology can programmatically execute available actions on objects. |
| 11.3.2.12 Execution of available actions | Supports | The following components meet this criterion:  
  - HCL AppScan Enterprise  
    - Installation Wizard for AppScan Enterprise, ManualExplore Installer, AppScan Manual Explorer Tool, Server Configuration Wizard, and Interaction Tool - A list of actions that can be executed on an object is programmatically determinable. Assistive technology can programmatically execute available actions on objects. |
| 11.3.2.13 Tracking of focus and selection attributes | Supports | The following components meet this criterion:  
- HCL AppScan Enterprise  
  - Installation Wizard for AppScan Enterprise, ManualExplore Installer, AppScan Manual Explorer Tool, Server Configuration Wizard, and Interaction Tool - Exposes information and mechanisms necessary to track and modify focus, text insertion point, and selection attributes of user interface components. |

| 11.3.2.14 Modification of focus and selection attributes | Supports | The following components meet this criterion:  
- HCL AppScan Enterprise  
  - Installation Wizard for AppScan Enterprise, ManualExplore Installer, AppScan Manual Explorer Tool, Server Configuration Wizard, and Interaction Tool - Focus, text insertion point, and |
selection attributes that can be set by the user can be set programatically, including through the use of assistive technology.

| 11.3.2.15 Change notification | Supports | • The following components meet this criterion:  
|                              |          |   o HCL AppScan Enterprise  
|                              |          |     • Installation Wizard for AppScan Enterprise, ManualExplore Installer, AppScan Manual Explorer Tool, Server Configuration Wizard, and Interaction Tool -  
|                              |          |     - Notification of events relevant to user interactions, including, but not limited to, changes in the component's state(s), value, name, description, or boundary, is available to assistive technologies. |

| 11.3.2.16 Modifications of states and properties | Supports | • The following components meet this criterion:  
|                                                  |          |   o HCL AppScan Enterprise  
|                                                  |          |     • Installation Wizard for AppScan Enterprise, ManualExplore Installer, AppScan Manual Explorer Tool, Server Configuration Wizard, and Interaction Tool -  
|                                                  |          |
| 11.3.2.17 Modifications of values and text | Supports | • The following components meet this criterion:
  ○ HCL AppScan Enterprise
    • Installation Wizard for AppScan Enterprise, ManualExplore Installer, AppScan Manual Explorer Tool, Server Configuration Wizard, and Interaction Tool - Values that can be set by the user can be set programmatically, including through assistive technology. | Text that can be set by the user can be set programmatically, including through assistive technology. |
| 11.4 Documented accessibility usage | Heading cell - no response required | Heading cell - no response required |
| 11.4.1 User control of accessibility features | Supports | • The following components meet this criterion:
  ○ HCL AppScan Enterprise
    • Installation Wizard for AppScan Enterprise, ManualExplore Installer, AppScan Manual Explorer Tool, Server Configuration Wizard, and Interaction Tool - Values that can be set by the user can be set programmatically, including through assistive technology. |
| 11.4.2 No disruption of accessibility features | Supports | The following components meet this criterion:  
| o HCL AppScan Enterprise  
| ▪ Installation Wizard for AppScan Enterprise, ManualExplore Installer, AppScan Manual Explorer Tool, Server Configuration Wizard, and Interaction Tool - Component does not disrupt platform features that are defined in the platform documentation as accessibility features. |

| 11.5 User preferences | Supports | The following components meet this criterion:  
| o HCL AppScan Enterprise  
| ▪ Installation Wizard for AppScan Enterprise, ManualExplore Installer, AppScan Manual Explorer Tool, Server Configuration Tool, Server |
Wizard, and Interaction Tool - Component provides a mode of operation that allows user preferences for platform settings for color, contrast, font type, font size, and focus cursor.

| 12.1.1 Accessibility and compatibility features | Supports | - The following components meet this criterion:  
  - HCL AppScan Enterprise  
  - AppScan Enterprise Help Center - Documentation lists and explains accessibility and compatibility features, including keyboard access. Instructions for using any features of the authoring tool that directly support authors in increasing the accessibility of the content being edited appear in the product documentation |
The following components do not apply to this criterion:

- HCL AppScan Enterprise
- AppScan - Enterprise Product Output: Reports & DashBoard, exported PDF, XLS, CVS, XML; Scan Log exported TXT - Non-applicable for the exports performed.
