DEFINE, DEVELOP, EDUCATE

Having the ability to exercise authority and decision-making over your data assets improves your organization’s data value and supports an overall data strategy. Applying data governance in an organization improves all areas of the business and aligns data needs across departments. The goal of this workshop is to create a roadmap to define the right people, process and technology to build a Data Governance Center of Excellence. This engagement will leverage industry best practices and lessons learned from helping our clients meet their goals.

- Augmented analytics
- Data quality

---

**DATA AND ANALYTICS**

**DATA GOVERNANCE WORKSHOP OVERVIEW**

We define data governance as a program of decision rights and accountabilities to appropriately treat data as an asset, including managing, leveraging and protecting it accordingly. Our team of certified experts offers a Data Governance Workshop that shows you how to stand up a data governance program to manage your data as an organizational asset.
ABOUT THE WORKSHOP

This client-centric, vendor-agnostic workshop is designed to provide education on data governance, including an in-depth overview of all the pillars in the graphic below, and a roadmap to enable your data governance journey. This workshop is available onsite over 3-4 days or remotely, broken out over 1-2 weeks. A Statement of Work with final project scope and pricing is provided upon finalization of custom requirements.

WORKSHOP GOALS

- Provide education on data governance best practices and a common language to move forward
- Identify and align to your data governance initiatives
- Define the vision and value of data governance
- Establish a data governance approach to fit your culture and data needs
- Define executive sponsorship and key business and technical leadership for the program
- Develop and deliver a near-term data strategy roadmap enabling you to begin your data governance journey

OUTCOMES YOU CAN EXPECT

- Data governance scoping and prioritization
- Development of clear sponsorship and data governance team members
- Clarification and documentation of a “right fit” approach to data governance
- Near-term roadmap and clear next steps
- Established partnership to drive long-term success
- Summary presentation & next step options: Data Governance Strategy & Roadmap, Data Security Governance Strategy & Roadmap or Data Privacy Alignment Workshop
